

Projects and consumables looking for funding

Our centres are always in need of basic equipment like pens and paper, chairs, tables, toys, books and balls for the children. Other projects are more capital intensive and are aimed at making the centres more self-sufficient, for example planting gardens to grow food.

Below is a list of consumables and projects that are looking for funding. If you can help with equipment, discounts, or hard cash to purchase items, please let us know! Simply give us your name, number or email address and we will contact you. (see reverse side)
